

Toll-Free Transfer Instructions

- 1) Fill out the application (below). All “Customer Information” must be filled out exactly as it appears on the EXISTING toll-free service phone bill.
- 2) Write your new Powernet Global account number on the application. This is vital to get your toll-free number put onto your account.
- 3) List all of your existing toll-free numbers that you would like to transfer, as well as the “ring-to” number for each (the number that your toll-free number forwards to). Make sure to list the “ring-to” number as the existing number that your toll-free number rings to. You can always change the “ring-to” number any time once it transfers to us.
- 4) Make sure to indicate whether your toll-free numbers are “Switched” or “Dedicated” if you don’t know which one you have, follow this general rule: if your long-distance is less than \$1000.00 in monthly usage, you are using “Switched” service.
- 5) Sign and Date the application
- 6) Make sure to get a copy of your EXISTING toll-free service carrier’s phone bill. You must send a bill that is no older than 90 days. *We don’t need the entire bill, only send us the FRONT PAGE (page 1) and any page of the bill showing your toll-free number on that page.*
- 7) Fax or Mail your application and two pages of your phone bill into us (see application)
- 8) It will take approximately 5-7 business days to transfer your number(s).
- 9) Feel free to call customer service for the status of the transfer

Thank you for choosing PowerNet Global Communications for your toll-free service. This form is used for the transfer of existing toll-free numbers to PowerNet Global, and must be accompanied by a completed Business or Residential Service Application, unless you already have an active account with PowerNet Global.
